List of Disease Surveillance Areas

- (A) The chief of the division of wildlife or the chief's designee may establish disease surveillance areas within the state if chronic wasting disease or bovine tuberculosis is detected in a member of the cervidae family.
 - (1) The disease surveillance area shall include all areas within a minimum of six miles centering on the location of the detection of chronic wasting disease.
 - (2) The boundaries of the disease surveillance area will be established by utilizing existing boundaries of political subdivisions of the state, roadways or rivers.
 - (3) The list of areas established as a disease surveillance area will be published by the division of wildlife and posted on the Ohio division of wildlife website at <u>wildohio.gov</u>.

Disease Surveillance Area 2021-01
